Subject: Hearing Examiner Meeting, 9/16/03

Greetings!

I need all of you as witnesses at the Hearing Examiner meeting on Tuesday, September 16th:

Dri--I need you to testify at the Sesko hearing that you personally served one of them (after you do that today).

Joe--I need you to testify that the vehicles and boats on the Sesko property at Barnes and Cottman is NOT in the city's right-of-way.

Larry--I need you to testify about the inspection that you and I performed at (b) (6) Street in April, regarding the requirement for egress windows, permits for the bathroom, plumbing code requirements that say you can't trap the relief line on the hwh, ceiling height, etc.

Simon would like to meet with all of us sometime on Monday, September 15th, so we can go over testimony and be prepared. Please check your calendars and let me know what time you have available on the 15th.

And a fun time was had by all!
